Your employees' digital platform

Digital Document Management

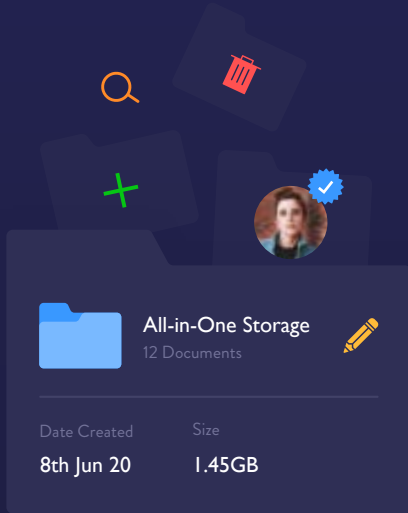

The Fusion platform is a web-based management dashboard and mobile app enabling you company to create, manage and distribute documents. Collaborate effectively inside and outside of your organisation by sharing information with your suppliers, partners, clients and wider stakeholders.

The Fusion platform provides:

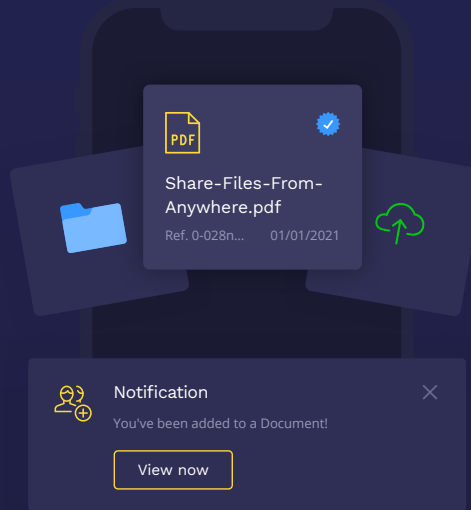

- Peace of mind
- Saves time
- Your business with a solution to manage and distribute all necessary documents

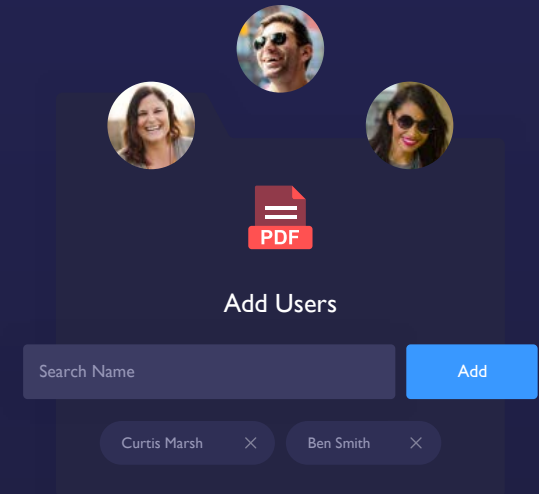

Instant access anywhere, anytime

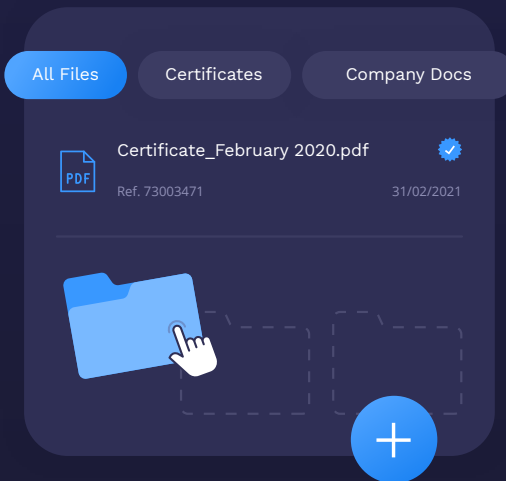

Central Information Repository

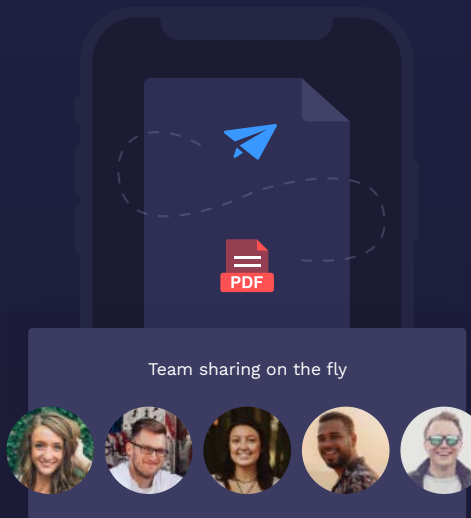

Seamless Document Sharing

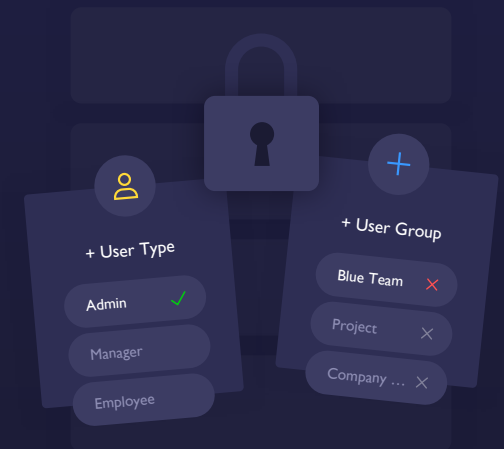

Collaborate with Anyone

Intuitive and easy to use

Remove manual, paper-based document processes

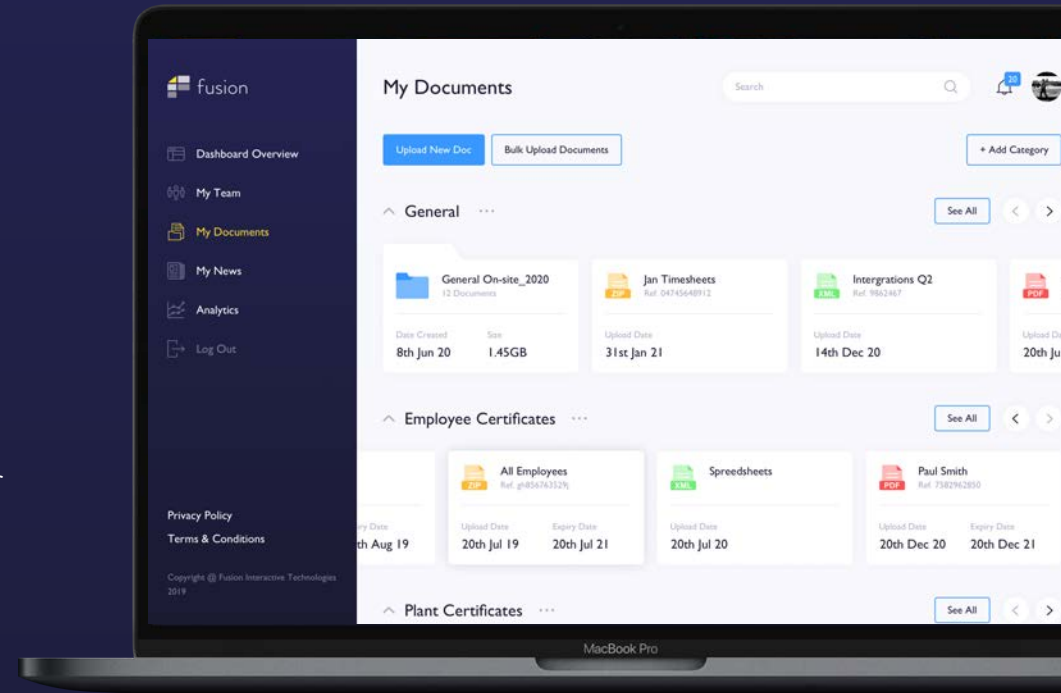

Built-in document security

Ensure all of your team members have what they need when they need it

Drive document process efficiencies, reduce the need for paper and improve your environment footprint. Now is the time to digitise your business.
